

Diet and the Gut Microbiota: New Directions

Working Group 1: Development and Maintenance of the Intestinal Microbiota

Facilitators:	Caroline Karlsson Julian Marchesi	University of Lund, Sweden University of Cardiff, UK
Herbert Tilg		Innsbruck University Hospital, Austria
Willem de Vos		Helsinki University, Finland
Matej Oresic		VTT, Finland
Annick Mercenier		Nestle, Switzerland
Billy Hargis		University of Arkansas, USA
Ali Oguz Buyukkileci		Izmir Institute of Technology, Turkey
Maria Carmen Collado		IATA-CSIC, Spain
Marie-France de la Cochetière		INSERM, France
Lawrance Nyoni		University of Manchester, UK
Arjan Narbad		Institute of Food Research, UK
Bengt Bjorksten		Karolinska Institute, Sweden
Bianca-Maria Exl-Preysch		Ex-lent Nutrition Consultants, Switzerland
Nathalie Juge		Institute of Food Research, UK
Ekaterina Avershina		University of Life Sciences, Norway
Maria Jenmalm		Linköping University, Sweden
Viola Strompfová		Slovak Academy of Sciences, Slovakia

Working Group 2: Effect of the Diet on Shaping the Intestinal Microbiota

Facilitators:	Bernhard Corfe Anne Salonen Johanna Maukonen	University of Sheffield, UK University of Helsinki, Finland VTT, Finland
Paul Ross		Alimentary Pharmabiotic Centre, Ireland
Tor Lea		Norwegian University of Life Sciences, Norway
Ian Rowland		University of Reading, UK
Marika Mikelsaar		University of Tartu, Estonia
Göran Molin		University of Lund, Sweden
Marion Priebe		University of Groningen, Netherlands
Bernhard Watzl		Max-Rubner Institute, Germany
Dietrich Knorr		Technical University of Berlin, Germany
Harry Flint		Rowett Institute, UK
Bruno Pot		INSERM, France
Clara G. de los Reyes-Gavilán		IPLA-CSIC, Spain
Angel Angelov		University of Food Technologies, Bulgaria
Atsushi Yokota		Hokkaido University, Japan
Charles Franz		Max Rubner Institute, Germany
Jean-Michele Antoine		Danone, France
Catarina Simões		VTT, Finland
Maria João Fraqueza		UTL, Portugal
Maria Lima		IASMA, Italy
Kirsi Vaali		University of Helsinki, Finland
Dominika Swiatecka		Polish Academy of Sciences, Poland

Working Group 3: Current and Future Technologies to Investigate the Intestinal Microbiota

Facilitators: **Velitchka Gotcheva** University of Food Technologies, Bulgaria
Karen Wright University of Lancaster, UK

Michael Blaut DIFE, Germany
John McLaughlin University of Manchester, UK
Reet Mändar University of Tartu, Estonia
Maria Saarela VTT, Finland
Michiel Kleerebezem NIZO, The Netherlands
Dusko Ehrlich INRA, France
Severino Pandiella University of Manchester, UK
Koen Venema TNO, The Netherlands
Alfonso Clemente University of Granada, Spain
Sabina Leanti La Rosa UMB, Norway
Simone Maccaferri University of Bologna, Italy
Adele Costabile The University of Reading, UK
Merve Samli Izmir Institute of Technology, Turkey
Lorenza Conterno IASMA, Italy
Nick Chadwick University of Manchester, UK
Signe Adamberg Tallin University, Estonia

Working Group 4: Bioactives: Discovery and Delivery

Facilitators: **Rachael Rigby** Lancaster University, UK
Patricia Ruas-Madiedo IPLA-CSIC, Spain

Ailsa Hart Imperial College, UK
Didier Dupont INRA, France
José Maria Lagarón CSIC-IATA, Spain
José Teixeira University de Minho, Portugal
Aldona Miezieliene Kaunas technological university, Lithuania
Andrea Lauková Slovak Academy of Sciences, Slovakia
Sam Possemiers University of Ghent, Belgium
Sebnem Harsa Izmir Institute of Technology, Turkey
Amparo López Rubio IATA-CSIC, Spain
Riitta Korpela University of Helsinki, Finland
Renáta Szabóová Slovak Academy of Sciences, Slovakia
Ana Cristina Freitas University of Aveiro, Portugal
Catherine Stanton Alimentary Pharmabiotic Centre, Ireland
José Carlos Andrade ISCS, Portugal
Ana Gomes Portuguese Catholic University, Portugal
Ernesto Hernandez University of Manchester, UK
Nagendra Shah University of Hong Kong, Hong Kong

ENGIHR is a Research Networking Programme funded by the European Science Foundation
